Iván Bonti

ABOUT ME

I am a sociable person passionate about teamwork, oriented towards achieving collective goals.

From an early age, I have been involved in the world of sports, which has strengthened my ability to collaborate effectively. Currently, I am seeking a position that allows me to apply the theoretical and practical knowledge I have acquired in university.

Furthermore, I have a strong desire to be part of a team of professionals with whom I can continue to learn and consistently improve my performance.

I am also interested in self-directed research and participating in extracurricular activities.

LANGUAGES

Spanish: Native language

English: pre-intermediate level and continuously learning

German: Level A1 passed and I continue studying

WORK EXPERIENCE

Database Research Group

June 2022-Present

- I am part of a development and research project team focused on various Artificial Intelligence techniques, primarily applied to image recognition.
- Python, Tensorflow, OpenCV, Google Colab.

Full-time instructor in "Argentina programa"

February 2023-May 2023.

- Served as a full-time instructor through a temporary contract in two sections of a course offered by the Ministry of Economy of Argentina, where I taught everything related to web development to over 200 students.

University professor assistant

January 2023-March 2023.

- Fulfilled the role of assistant lecturer in the University Entry Seminar, where I contributed to teaching Mathematics and Physics to an audience of over 100 students.

EDUCATION

Bachelor's degree in Information Systems Engineering -UTN-

March 2019-Present.

- Advanced student, nearing completion of the degree, gaining technical and soft skills while studying what truly impasses me.
- **Technologies:** Java, C#, Python, React, Angular, VSCode, VS, GitHub, UML, Pascal.
